PROFESSIONAL SUMMARY

Data Scientist and Project Manager with over 6 years of experience in developing AI-driven solutions in the education and healthcare sectors. Proven ability to lead data initiatives, manage cross-functional teams, and drive impactful decisions using ML, statistical analysis, and visualization tools. Currently pursuing a Ph.D. in Data Science with a focus on genomics and health informatics.

SKILLS

- Machine Learning & Predictive Modeling
- Project Management & Team Leadership
- Python, R, SQL, and Tableau
- Data Analysis & EDA
- Regression & Statistical Analysis
- Data Visualization & Storytelling

EXPERIENCE

Education Monitoring Authority, Mohmand - Data Scientist

JULY 2019 – JULY 2025

- Led end-to-end data analysis using Python to monitor education performance, resulting in data-informed decision-making across departments.
- Developed predictive models to reduce complaints by 8% and improve resource allocation.
- Spearheaded data visualization efforts for stakeholders, enhancing transparency and reporting quality.
- Co-managed a team of 16 and launched enrollment campaigns that led to a 6% YoY increase.
- Introduced process improvements to streamline workflows and boost team efficiency.

EDUCATION

Ph.D. in Computer Systems Engineering (Specialization in Data Science)

University of Engineering & Technology (UET), Peshawar (March 2023 – Present)

M.Sc. Data Science in Health and Social Care (Online)

The University of Edinburgh, Scotland (September 2024 – Present)

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Google Data Analytics Specialization
- Google Project Management Specialization
- Deep Learning Specialization – Coursera
- Deep Learning for Health Specialization
- Google Soft Skills Program
- Google Advanced Data Analytics Specialization
- Google Business Intelligence Specialization
- Health Informatics Specialization – Johns Hopkins University
- Genomics Specialization – Johns Hopkins University
- McKinsey & Company Forward Program

LANGUAGES

English (IELTS with overall 7 band score), Urdu, Pushto, Arabic (Basic)

8 Courses

- Foundations: Data, Data, Everywhere
- Ask Questions to Make Data-Driven Decisions
- Prepare Data for Exploration
- Process Data from Dirty to Clean
- Analyze Data to Answer Questions
- Share Data Through the Art of Visualization
- Data Analysis with R Programming
- Google Data Analytics Capstone: Complete a Case Study

Sep 14, 2024

Tariq Jamal

has successfully completed the online, non-credit Professional Certificate

Google Data Analytics

Those who earn the Google Data Analytics Professional Certificate have completed eight courses, developed by Google, that include hands-on, practice-based assessments and are designed to prepare them for introductory-level roles in Data Analytics. They are competent in tools and platforms including spreadsheets, SQL, Tableau, and R. They know how to prepare, process, analyze, and share data for thoughtful action.

7 Courses

- Foundations of Data Science
- Get Started with Python
- Go Beyond the Numbers: Translate Data into Insights
- The Power of Statistics
- Regression Analysis: Simplify Complex Data Relationships
- The Nuts and Bolts of Machine Learning
- Google Advanced Data Analytics Capstone

Feb 10, 2025

Tariq Jamal

has successfully completed the online, non-credit Professional Certificate

Google Advanced Data Analytics

Those who earn the Google Advanced Data Analytics Certificate have completed seven courses that include hands-on, practice-based assessments and are designed to prepare them for advanced roles in data analytics and entry-level roles in data science. They are competent in exploring large datasets, applying data analysis techniques, and building models to extract insights. They are also competent in machine learning, predictive modeling, and statistics.

Tariq Jamal

has successfully completed the online, non-credit Professional Certificate

Google Business Intelligence

Those who earn the Google Business Intelligence Certificate have completed three courses that include hands-on, practice-based assessments and are designed to prepare them for entry-level roles in business intelligence. They are competent in creating processes that transform data into actionable insights to inform business decisions, developing data visualizations, and building dashboards that employ design best practices to meet stakeholder needs.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

3 Courses

Supervised Machine Learning: Regression and Classification

Advanced Learning Algorithms

Unsupervised Learning, Recommenders, Reinforcement Learning

Stanford University

Dec 27, 2023

Tariq Jamal

has successfully completed the online, non-credit Specialization

Machine Learning

Congratulations on completing all three courses of the Machine Learning Specialization! You studied modern machine learning concepts, including supervised learning (linear regression, logistic regression, neural networks, decision trees), unsupervised learning (clustering, anomaly detection), recommender systems, and reinforcement learning. You learned some of the best practices for building machine learning models. You've also gained practical skills to apply machine learning techniques to challenging real-world problems. Now #BreakIntoAI and start building your career in machine learning!
